"A Big Thank you"

Thank you all who displayed their artwork in the Christmas Art Show at Sycamore Shoals and other members who gave their support to the show, because of you the show was a tremendous success. Thanks to all who worked one or more days answering questions and collecting money for artwork that was sold.

Thank you Barbara Jernigan for organizing the painting of Christmas Card at the November meeting and then delivering them to Life Care Center of Gray.

There are 85 residents at Life Care Center of Gray, so 40 printed from paintings with a greeting inside were added to the ones painted by members. A loose greeting was inserted in the 45 hand painted ones. That way the residents could pass them on if they wanted to give one to family, friends or care givers. The Tuesday night class helped stuff the envelopes and enjoyed seeing all the beautiful paintings.

The following was posted to the Facebook page of WVAL:

"Thank you so much for my husbands gift at the life care center of Gray. He is enjoying the snacks right now. Thank you again for it all. It means so very much! Mary Marshall for Michael Marshall"

Congratulations and THANK YOU to Judy Donley who will serve as WVAL President for 2018 and also thanks to Tom White who is WVAL President-Elect and will serve as president in 2019.

Learn to Use a Plexiglas/Acrylic Viewing Panel to Draw

with DAVID KRAMER

Use this technique for Plein Aire, Journaling, working in the Studio or developing Portraits

Class will be held on **Friday; Jan 12th from 5:30 – 7:30 p.m.; Cost - \$25 payable at the Work of Art Gallery; 600 State Street; Bristol, TN.**
Call 423-797-0089 (or visit between 10am-5pm) to reserved a spot.

During class, you will learn a simple and convenient way to transfer images from life or photos to a canvas or paper, you can sketch difficult perspective easily, or create accurate figure sketches in minutes. All this by just using a piece of Plexiglas/Acrylic and a common dry erase marker. It will make your task of getting an image to paper or canvas easier than ever. This technique really allows you to capture several complicated sketches in a very short time (3-5 minutes). It is an asset when on a time constraint, because you don't

have to be concerned about drawing correct perspective, shadows, models moving or a lot of measuring.
